S. KANARA, MANGALORE

To

The Secretary to Government

Development Department,

MADRAS.

Sir,

We beg to forward to you a copy of the rules of our --- Association, and some of our latest published reports, in --- accordance with the wishes of the Executive Committee of the - Association. Our report for the year 1924 - 25 will be --- sent as soon as it is printed .

We approach you with this petition in the hope, of ---- receiving advice and co-operation of your department, in --- carrying on our work in the District . We think that in the line of work so far chalked out by us, we ought to come into contact with the Officers of your department, who are ex every now and then visiting our district, We feel sure, ---- that, if only your department deems it proper, to co-operate with us in our work it could do so, in various ways.

Our Association was the first to organise Agricultural and Industrial Exhibitions in the District, which were ----- thrown open to the whole of India and Exhibits were received from various quarters and the Agricultural, Industries, ---- Fisheries, Forest and other departments of Government have -- been taking part and competing with others, and prizes, ---- certificates and medals have also been awarded to the ---- successful competitors. Three such exhibitions have so far been held in 1917, 1920 and 1923 respectively.

From the extract (enclosed herewith) of our report for 1924 - 25, it will appear that the Association has recently

taken on hand, the work of reviving the rattan industry, among the lowest of the depressed classes called Koragas, --- in this work. We are being assisted by Government --- Labour Department and The Forest Department. We have also other objects in view, calculated for the advancement of the District.

We shall feel thankful to Government, if Officers of the Development Department, who happen to visit our District could give us previous intimation, and also supply us with copies of their tour programme, so as to enable us to seek their advice on matters affecting the welfare of the District while they are on tour here, as well as supply us with all government publications relating to your ---- department, so that we could place them in our reading ---- room and also try to disseminate their contents through ---- the District whenever necessary.

We beg to remain,

sir,

Your most obedient servants,

M R Ry attke

M Ramanatha Pai

Secretaries

Clerk.

Extract of the Report 1924-25.

3

RATTAN INDUSTRY.

In september last year when Mr. Paddison - the Labour Commissioner visited the District, the -- executive committee had an opportunity of discussing with him the possibility of reviving the rattan ---- industry in our district. It had been known for - many years to be the sole occupation of Koragars who can be called the Aborginies of the district. The then Collector Mr. Souter not only showed a keen --- interest in the attempts of our association in that direction but actually encouraged the members. ---- Mr. Paddison also having assured the executive --- committee of the sympathy and support of his depart--ment through the labour officer of this district, a small begining was made in December last year. -- Several sample articles of Bamboo and rattan such as baskets of various kinds, tiffin boxes, cushions, -- waste paper baskets and various other ornamental --- as well as useful articles were prepared within a -- few weeks and when an educational exhibition was g - held in the premises of the higher elementary ----- training school, Mangalore, a stall was opened there with the kind permission of the organisers for which the association takes this opportunity of thanking - them, and the attempts of the association in this --- direction were well advertised and made known to --- people from all parts of the district. As a conse--quence, the business had to be expanded and just -- before the monsoon set in this year several of mem--bers and well wishers of the association as well as the general public came forward with many orders for bamboo thattees etc., and the association Koragars - appear to have given them ample satisfaction for the encouragement thus received as is borne out by some of the testimonials printed in the appendix. -----

Thus emboldened it e was thought quite opportune to take on hand the manufacture of difficult pieces of furniture such as chairs and sofas and we are proud to say that the Koragars have displayed laudable --- skill in copying all patterns almost at the very --- first attempt, so much so that when the several ---- articles made by them were showed to Mr. Ellis during his recent visit to our district as labour commission -er, he was much impressed by the natural aptitude - displayed by our Koragars for this work and said that he would try to send an expert to help them in manu--facturing high class articles displaying the requi--site amount of finish in design as well as in exe--cution and also to send samples of such furniture - if possible. Accordingly the Association has ---- petitioned the labour commissioner to that effect -- and is awaiting his reply.

Appendis D shews the receipts and --- disbursements on account of rattan works carried on by the Association from 1-12-24 to 31-10-1925 from - which it would appear that a sum of Rs.704-4-3 has - been altogether spent on this account during the said period of eleven months bringing a return of cash -- Rs.654-5-4 including outstandings, manufacturered --- articles of the book value of Rs.118/- consisting of rattan and bamboo articles in stock and tools etc of the approximate value of Rs.20-9-11 used for the industry. The total amount utilised so far out of the ~~situation~~ Association fund for this Industry is Rs.221-9-5 - and with the help of this small ~~unclers~~ nucleus the rest of the business has been carried on during the period - in question.

In order that the ~~situation~~ Association might --- succeed in establishing this Industry and thus add--ing to the wealth of the District it ~~might~~ ought to be able

to get up this business on a fairly large scale ---- which is big enough to maintain an export trade in manufactured articles. Such an object in view --- cannot be said to be very ambitious or visionary for we have enough Koragars even in Mangalore Town who - can sustain a fairly big business concern of the --- kind needed and we have ample materials required viz various kinds of rattan and reeds etc., for the ---- industry in the Government Reserved Forests in the - District. Many of the Koragars have come and are - coming under the control of the Labour Officer and h his department as they are rapidly getting drawn by the many attractions and facilities afforded by this colonies. The association takes this opportunity of thanking the District Labour Officer for secu- -ring us and keeping in our charge the required ----- number of Koragars for our work and assisting us --- in all and sundry wages. It is also thankful f to the Chief Conservator of Forests and the District -- Forest Officer North and South for reserving farms for the collection of rattan and crsepers and permit -ting the Association to cut and remove them free -- of scnerage. It is hoped that with such hele- --- whole hearted sympathy from the Departments of ----- Government and encouragement offered by the Members of the Association and the public the Association -- will succeed in its efforts not merely in reviving - the industry but in reestablishing it on a sound --- basis and in making it a prominent and fruitful indu -stry. A regular establishment under the charge -- of an expert being the primary requisite the Assistn -ance from the Government in the shape of a grant -- would very much strengthen the hands of them Executive Committee in stepping out boldly with its scheme.

D.Dis. No. 1016-26.

Station Mangalore., *Dated the* 13th March, 1926

From (Name) G. W. Wells, Esquire, M.A., I.C.S.,

(Designation) Collector of South Kanara.

To The Secretary to the Government of Madras,

DEVELOPMENT Department.
Madras.

Sir,

The District Advancement Association, Mangalore seeks advice and cooperation of the Development Department in carrying on its work in this District. The request of the --- Association to be supplied with copies of tour programme of --- the Officers of the Development Department in advance of --- their coming and with all Government publications relating to that Department is, I think, reasonable and may be favourably considered.

2. The Association was the first to organise ---- Agricultural and Industrial Exhibitions in this District.

3. The Association is taking keen interest in the work of reviving rattan work among the Koragars, the most -

backward among the depressed classes. Last April my predecessor requested the Dt. Forest Officers, Mangalore North & South to -- reserve the farms desired by the Association and to show it the concessions allowed under the rules. For this purpose the ----- District Forest Officers have obtained as an experimental measure for one year ending 30-6-26, the sanction of the Chief --------- Conservator for the reservation of the farms required by the --- Association and for waiver of seigniorage on the produce -------- collected by it for purposes of the rattan industry. This ------ industry has many possibilities in this District and if carried - systematically on improved lines will certainly be conducive to - the well-being of the Koragars who entirely depend upon it for -- their livelihood. They make such articles as baskets, wicker --- chairs etc and their work is very promising. A copy of the ---- Dt. Labour Officer's report obtained on this matter is submitted.

3. The letter and its enclosures received with the Government reference are herewith returned.

Your obedient servant,

For Collector.

(Continued.)

Rules of the South Kanara District Advancement Association

Rules for 1921-22.

1. The Association shall in future, be designated "THE SOUTH CANARA DISTRICT ADVANCEMENT ASSOCIATION"

2. The association shall have for its objects the dissemination of the knowledge of the best and the latest improved and approved methods of Agriculture and Industry and their development generally in the district, the examination of the industrial possibilities of the district, the issue of pamphlets in English and vernacular on those subjects as necessary from time to time, and the training of selected individuals in expert commerce.

3. The Association shall have its own fund, entitled "The District Advancement Association Fund". Assets at present consist of:—

(1) The District advancement Fund, Rs. 4000, being the balance of the Agricultural and Industrial Exhibition held at Mangalore in 1917, invested in the Canara Bank.

(2) The interest realised on the above sum amounts to Rs. 705-9-6, out of which Rs. 500 deposited as a fixed deposit in the Kanara Bank and Rs. 205-9-6 in the Kanara Savings Bank Account.

(3) Rs. 1820, the balance of the District Agricultural Association fund invested in the Puttur Co-operative Bank, and Rs. 56-3-6 invested in the Postal Savings Bank, Mangalore.

(4) Rs. 350, being the balance of the Agricultural and Industrial Exhibition held at Mangalore in 1920 invested in the Shamrao Vittal Co-operative Society Mangalore.

(5) Besides the above the Association has in their possession 2 sugarcane mills and pans and office furniture amounting to the value of about Rs. 200

4. There shall be 2 classes of Members:—First class, Rs. 4 per year. They are entitled to all literature, services of any expert or advisers the Association engages, use of any machinery or plant the Association possesses at the concession rates, and to participate as far as practicable in the distribution of any new species or the like introduced on the terms of the Association. Second class, Rs. 2 per year to town Members and Re. 1 to Mufasil Members. These are entitled to literature only.

That there shall be an additional class of Members called Life Members who on payment of a single donation of Rs. 100 or more in Mangalore, or Rs. 50 or more in the Mufasil, shall be entitled to all the previleges of first class members for life.

Donors will be considered as members for the year of their donation and will be placed under first class if the amount of donation is Rs. 4 and above.

Subscription should be paid yearly in advance. Any member failing to pay within a month after the due date shall not be treated as a member.

5. The Association shall be controlled by an executive committee of whom three will be trustees and one secretary and treasurer and one joint secretary.

Eleven first class members shall form an executive committee of whom 4 shall form a quorum. The executive committee shall have power to appoint a standing committee to deal with particular branches of work and these standing committees shall have power to co-opt experts who are not members of the Association to assist them. The names of these members are given in appendix A. The Collector of the District to be Ex-Officio Trustee and President of the Executive Committee. The Association will Bank with any Bank approved by the Executive Committee and open accounts in the name of the Secretary and Treasurer.

6. The members of the Executive Committee including the secretary will hold office for 1 year. Outgoing members shall be eligible for re-election. Vacancies in this Committee including the trustees other than the Collector will be filled up by the remaining members of the Executive Committee by election from among the members of the Association.

7. The Executive Committee shall ordinarily meet once a month on the free saturday in each month for the transaction of business; and the Secretary shall give five days' notice of the meetings to the members, circulating at the same time to such of the members as are residents in Mangalore the papers which are to come up for consideration before the meeting.

8. The quorum for the meeting of the Executive Committee shall be 4: All questions should be decided by a majo-

rity of votes. The President shall always preside at the meeting and in his absence the members present should elect one among themselves to preside. The presiding member is entitled to a casting vote in the event of the members present being equally divided in opinion on any point.

9. The Executive Committee shall convene a general meeting of the members of the Association once a year soon after the close of the Official year, and place before the meeting for approval a report of the business done during the past official year with statements of accounts.

10. The Executive Committee will be invested with all the powers to carry out the objects of the Association and to utilize the fund of the Association for that purpose up to a minimum limit of Rs. 1500 in a year subject to the condition that the funds are to be expended only on matters calculated directly to advance either on Agricultural or the Industrial wel-fare of the District, such as the procuring of expert advice and opinions on the introduction of specific Industry, the exploitation of power schemes investigating and improving the existing methods of Agriculture in its various branches such as cattle-breeding and fodder, implements of husbandry, sugarcane mills, manures, water-lifts, seeds, appliances for the preparation of Agricultural produce for the market, and the training of selected Individuals in expert commerce and for the like purposes in Agriculture and Industry. The services of the trained individuals should be utilized for the benefit of the District and where the circumstances of the case render it possible the payments made for the training should be recoverable on the lines of the Tata's Scheme. The Executive Committee shall have also power to raise temporary loans up to a maximum limit of Rs. 1500 on the security of the deposits of the Association whenever required to carry out the objects of the Association.

Expenditure of a sum of more than Rs. 500 at one time can only be undertaken with the previous sanction of a general meeting of the Association.

Not only the Executive Committee should devote their time for the welfare and upkeep of the Association but even the members of the Association should take an active part in the work of the Association, and should assist or suggest that certain works be done.

11. The members of the Association shall be entitled to the following privileges: — The members of all classes shall be entitled to look to the managing Committee for reasonable help in their endeavours to advance the interests of Agriculture, Industry and Commerce. They shall also have access to the library of the Association and may read books therein and be further entitled:—

1. To inspect the experimental farm if there is, the breeding bulls and such and to record remarks if any, in the visitors' book on matters connected with the farm, such as the condition of the standing crop, the measures used & c.
2. To inspect seeds and implements and materials connecting industry & c.
3. To ask the managing committee to obtain professional opinion or other information regarding the best varieties of seeds, Agricultural implements, cattle &c. and also about Exhibitions and shows and other kindred objects.

12- The Association shall be in touch with the Director of Industries and the Director of Agriculture and shall take steps to be supplied with Agricultural Bulletins and literature as issued by the Director.

13. These rules can be added to, revised, or recast only with the approval of a general meeting.

14. 15 Members shall form a quorum for a general meeting.

NOTICE.

The Annual General Meeting of the members of the District Advancement Association, Mangalore, will be held in the Bench Court Hall, Mangalore at 4-30 p. m. on Tuesday the 30th October 1923.

All the members of the Association are cordially invited to attend the meeting.

AGENDA & PROGRAMME.

1. The President's introductory speech.
2. The Annual Report for the year 1922—'23.
3. Consideration of Branch Associations in Taluks.
4. Appointment of Taluk Presidents for the Branch Associations.
5. Opening of a demonstration Agricultural & Cattle farm.
6. Holding of the III Mangalore Agricultural & Industrial Exhibition.
7. Suggestions from the members.
8. Consideration of petitions, etc.
9. Passing of Budget for the year 1923—24.

The Annual Report

OF THE

DISTRICT ADVANCEMENT ASSOCIATION, MANGALORE.

The Executive Committee have much pleasure to present their 3rd Annual Report and statements on the working of the association for the year ended 30th June 1923.

Membership.

At the close of the official year i. e., on the 30th June 1923, there were 125 I Class members and 29 II Class members on the rolls, out of which 9 left the District, 3 died, 6 have sent in their resignation and 3 have not paid their subscriptions and now there are 106 I Class and 27 II Class members.

The Association very much regrets to record the untimely death of our late President M. R. Ry. A. R. Nedungadi (Collector of S. Kanara) who had taken lively interest in our association. The Executive Committee have sent a letter of condolence to his breaved family.

The Association equally regrets to record the transfer of the next President Rao Bahadur S. N. V. Rajachar (Collector of S. Kanara) who rendered useful service during his short stay in Mangalore.

Arrears.

It is much to be regretted that a large number of members have been in arrears of subscription in spite of repeated appeals for clearing up their arrears. The total outstandings at the end of the official year on the item of subscription

from Town and moffusil members amounts to Rs. 103–12–0 and Rs. 227–0–0 respectively It is needless to remind members that the work, vitality and progress of the Association has much to depend on regular payment of subscriptions. As the members have not been prompt to pay their arrears, we have been compelled to encroach upon the Association, fund itself to meet the current expenditure and cannot continue doing so. We have therefore to request the defaulting members to be good enough to pay up their arrears at an early date.

Some of the members put forward as a plea for sending in their resignation the query "What good the Association has done so far and what it could do in future with the limited funds at its disposal." The executive committee very much desires to impress in the minds of the members that the Association is almost in its infancy and it has done whatever it could possibly have done with the small funds at its disposal and hopes for better prospects in the future with the hearty co-operation of the members. In the hands of the members lies the bettering of the Association—an institution of the greatest value for the Agricultural and Industrial progress of our District. The Committee therefore earnestly desires that all the members will take more interest in the Association by suggesting practical ways of raising the fund and utilising same to further the objects of the Association.

Meetings.

These were regularly held being monthly meetings. One general meeting and one annual meeting besides 3 meetings in connection with Exhibition were also held.

No meeting had to be adjourned for want of a quorum,

Breeding Bulls.

At the last annual meeting held in September last, it was resolved to dispose of the Bull "Gopal" as the members considered that the Association would not be able to maintain both the bulls much long without drawing upon the Reserve Fund itself, as the income would not suffice to meet the expenditure on this head and other items of the expenses of the Association. When arrangements were being made for the disposing of the bull, letters were received from the Veterinary Doctor and other members to consider the question in the light of the disadvantage to the Association as pointed out in their letters which were read out at the last general meeting and it was resolved to maintain both the Bulls and to have also one stud Buffallo for the public benefit. Accordingly a buffallo of Mysore Province has been bought at a cost of Rs. 118—1—4 including conveying charges. We may however inform you that Government has been pleased to grant us a sum of Rs. 100/-per bull per annum to partly meet the cost of the upkeep. During the official year the total coverings were 173 viz:—

Bull "Guindy Conqueror"	44	Coverings.
Bull "Gopal"	115	,,
Buffalo "Mesheva"	14	,,

The Buffalo began to serve from the month of May. The cost of maintaining these Bulls comes to Rs. 797—2—3. Taking into a/c Rs. 200—0—0 Government grant for the year on the two Bulls and Rs. 432 service fees etc. recovered, the Association suffered a loss of Rs. 165—2—3. When it is remembered that the number of Coverings per Bull are restricted under the Government rules, and that, what is lost in money is gained in the improvement of breed of our own

Cattle, as is evidenced from results of coverings of our Bulls as reported by their owners and acknowledged by the Dy. Director of Agriculture, Live Stock, Madras, who when he last visited the stud Bulls visited also the progeny of these bulls, (the calves showing distinct improvement in their general development) it is a question or serious consideration for our Association whether we should not undergo some pecuniary loss in this line of development of our district the improvement of dairy cattle which is becoming a subject of vital importance. We are glad to report that this undertaking is daily becoming popular with the public. The Executive Committee are glad to inform the members that their application for premium on the buffalo has been favourably considerd by Mr. R. W. Littlewood, N. D. A., Dy. Director of Agriculture, Live Stock and there is every hope that Government will grant same as also the Committee s request to increase the usual premium by 25% on account of the present high prices of foodstuffs and grains.

Bull Shed.

A bull shed at a cost of Rs. 639 was built in the Government Veterinary compound in 1922. Out of this cost the Association received a donation from the public in cash and material to the value of Rs. 430/-. The names and particulars are shown in Appendix A. The managing committee is thankful for these Donors and hope that other gentlemen will come forward with generous subscriptions in kind or money for the maintenance of the stud animals for the public good.

Reading Room.

The Reading Room opened last year furnished with some of the Journals and Magazines intended to give the

latest information connected with Agriculture and Industry, we are glad to say, is being taken advantage of by a good number of local members. It is to be hoped that others will also avail themselves of this advantage offered to them for improving their knowledge. The need for a Library containing books on Agriculture, Industry and Commerce has been a long felt want and Government has been again approached for a grant of Rs. 1000/- as our Association cannot afford this initial cost. The present application was favourably recommended to Government by the Collector and it has been forwarded to the District Board President, Mangalore and through him to the Educational Officer. A catalogue of books is being got ready for submission as desired by the said officer and the Executive Committee hopes the grant will be sanctioned.

Demonstration Agricultural and Cattle Farm.

A demonstration agricultural and cattle farm has been urged by many members as being quite necessary for the agricultural development of our District. Suggestions concerning the same have been sent by some members to the Association Office which are open for perusal of members. Owing to the very limited means at our disposal, the Association is not able to launch in such a venture, unless Government takes the initiative and helps us with contribution. When the Director of Agriculture visited Mangalore on the 18th January last, the Association held a special meeting when this subject and the question of supplying denatured salt duty, free, were placed before him and he was appealed to, to help the Association and recommend our request to Government for favourable consideration. Rao Bahadur N. Subba Rao, District Board President willingly

agreed to let a portion of his land at the disposal of the Association for this purpose, and to render his help as far as possible. The Director replied that owing to the present financial stringency he regretted he could not recommend the Association for any special grant for conducting an agricultural or cattle farm, but would place the services of a demonstrator to advice and guide us if we ourselves devised means and opened up one. With regard to the supply of denatured salt at concession rates as allowed by the Government of Bombay, after much correspondence, we have been finaly informed by the Director of Agriculture in his letter dated 14—2—1923 that experiments are being continued by his department with salt as manure for cocoanuts and until these are carried out and the matter thoroughly investigated, it is not possible for him to back up our proposal and advise Government to issue denatured salt duty free.

Industrial Loan Scholarships.

With a view to help poor students to cultivate, acquire or prosecute any branch of Agriculture, Industry or Commerce the Association decided to award four scholarships of Rs. 5/- per month for three months to each candidate selected. Advantage was taken of the kind offer of Messrs. P. Machado & Sons who undertook training of candidates recommended by the Association for a period of three months, and already three students have completed the course of instructions and the said institution has certified as to their effeciency. Our thanks are due to Messrs. Machado & Sons for training our apprentices. It is hoped that other institutions will come with similar offers for the development of Industry in this and other branches.

The Executive Committee had also approached Government for grant of four scholarships on similar lines but it found the rules governing grant of same not practical and could not be accepted by the Association.

Finances.

Statement of cash receipts and disbursements, and the balance sheet are exhibited in Appendix A. to C.

Investments.

The investments at the close of the year amounted to Rs. 6030—1—10 of which Rs. 4800/- is a fixed deposit in the Kanara Bank, Rs. 1220/- in the Puttur Central Bank and Rs. 10—1—10 in Kanara Savings Bank.

Establishment.

The Association has engaged a permanent clerk and a peon on Rs. 25/- and Rs. 10/- respectively.

ACTIVITIES.

THE EXHIBITION.

One of the main items of the activities of the Association is the holding of the Mangalore Agricultural and Industrial Exhibitions. The first Exhibition was held in December 1917 at the initiative of our popular Collector Mr. Lionel Vibert who in the interests of our District not only conceived the idea but spared no pains in making the undertaking a decided success. A net sum of Rs. 4000 was collected as the result of the Exhibition and it was thought best to utilise this amount as the initial fund of this Association which was started in November 1918. The old Agricultural Association with a fund of Rs. 2073 was

incorporated in this. Mr. Vibert was the first President of the Association and a sum of Rs. 500 was sanctioned by him as Collector from the discretionary grant towards its fund. The public of this District will ever be grateful to him for the lively interest he took in the matters tending to the advancement of our District. The second Exhibition was held in December 1920 and was a distinct success though not financially in that there were 143 entries as against 128 of the previous year and the loan exhibits also enhanced the value of the Exhibition. The space covered by the exhibits was more than double that of the Exhibition of 1917, the sales at the gate and the actual attendance larger. The rates of fees being only 50% of those in the previous Exhibition and there not having been an organised attempt to sell the tickets in the moffussil and by private sales through the members of the Association, the amount realised was necessarily small viz. about Rs. 750. No doubt you will all agree that the value of the Exhibition lies not so much in the show or what it brings in, but in the educative and other aspects of it. It promotes healthy rivalry between the exhibitors who strive to attain greater excellence in their articles manufactured or produced than their competitors. The loan and other exhibits from outside the District and of other Presidencies afford models and instruct our own people in the art of imitating them and of utilising the produce of our District for their manufacture. The Exhibition forms, so to say, an advertisement for the products raw and manufactured in the District and hence the improvements in the Industrial side of our own District. The Government Departments who take advantage of the Exhibition to demonstrate to the people the

work they are carring out and the improvements they can suggest in Agriculture, Industries, Fisheries and other departments like the forest, Entomological, impart a lore of knowledge which would not be easily available to the general public except through the medium of a local Exhibition. It was for considerations like these, that Mr. Ellis the then President of the Association proposed in 1921 that the Exhibition be made annual or bi-annual and it do form one of the main activities of the Association. At the General meeting held on 3—4—22 it was resolved that the third Agricultural and Industrial Exhibition be held in December last and the necessary prospectus were printed and distributed and abstracts published in the several leading papers. In July 1922 letters were sent by some of the members to the President pointing out the advantage of postponing the Exhibition in view of the counter attractions— the Exposition at Goa and the Madras Exhibition which latter was subsequently given up.

The meeting held on 26—7—'22 to consider the suggestions put forward by the members referred to above, resolved that the Mangalore Exhibition be postponed sinedie. Again at a meeting held on 23rd April last it was resolved to hold the Exhibition this year during Xmas. Accordingly the same has been advertised in the papers and amended prospectus distributed in various centres of the Districts of both the Madras and Bombay Presidencies. An Executive Committee in connection with the Exhibition has been formed and the members have signified their consent to serve

on the Committee and render all possible help. It has already cost the Association about 150—0—0 Rs. towards printing and preliminary expenses. In connection with two or three letters received which will be read out to you regarding the holding of the Exhibition this year the President has directed that this subject be placed as an item of today's agenda and the Executive Committee earnestly requests you to consider whether in the light of circumstances above set forth the Exhibition may at this stage when preparations for it are far advanced and applications already received—be justifiably and advantageously cancelled again.

Garden.

The Association has been maintaining a small garden adjoining the office for demonstration where experiments are being carried out to show that the poorest soil such as the hard laterite soil we have here can be well adopted to grow Tapioca, Arrowroot, Ragi, Guinea grass and many other species of cultivation. The enormous extent of wasteland in the District can well be utilized to increase our resources which is not done at present, if the cultivators take a little more interest in this line and Government is prevailed upon to allow concession to growers of these crops.

Bus Association.

Suggestions were sent by some members regarding the formation of a Bus Association so as to put a stop to the unhealthy and ruinous competition among the Bus owners, to ensure better comfort and to safe guard the safety of the travelling public. The Committee took up the work and the Bus owners heartily supported it. A sub Committee was formed of some of the bus owners and members of the

executive Committe of the Association to work out the details and form such an Association with the Co-operation of the Bus owners in their own interest and that of the public. Several meetings were held and the details worked out, and even the preliminary articles framed. It is to be much regretted that the Bus owners, who at first evinced so much interest therein and desired such a combination, later on, for reasons best known to themselves never troubled any further about it and the convener (a leading Bus owner) in spite of repeated requests failed to call for a meeting.

At the general meeting held on 24th March last it was resolved that the letter of Rev. Fr. J. F. C. Vas submitting proposals for the construction of a Railway from Mangalore to the foot of the Ghauts, be referred to the sub Committee formed at that meeting to formulate a scheme for transmission to the District Board with a request to take steps to carry it out if possible and utilize the Railway cess amount accumulated during the last so many years. Particulars are being collected regarding the working of the Reynard road train and other kindred systems like the steam tram line and steam tramway. Unfortunately the very places the line was to pass through have been hopelessly devastated by the recent floods and it will necessarily take some time for the scheme to mature.

Usefulness of the Association.

The work of the Association to be properly carried out requires hearty and organised co-operation from all the members. It is a pity that our resources being so scanty, we are not able to show appreciable work and our critics often point out that we have not done anything beyond maintaining a garden, encouraging cattle breeding by

the keeping of stud bulls and holding periodical Exhibitions. The very constitution of the Association will convince anybody, if proof is wanted, that the object for which this institution was founded was to form a semi-official body of gentlemen with the Collector of the District as President to devise means and ways of improving the Agricultural and Industrial state of the District and generally to help the people by their advice or obtain expert information on any subject referred to it. If the members view the existence of this Association in this light and assist the Executive Committee by promptly paying their subscriptions, by inducing others to join the Association, by sending in practical suggestions for expanding its usefulness and increasing its funds, the Association is bound in a few years time to make its influence felt both with the Government and public bodies who will support all its legitimate aims or undertakings and be able to bring the benefits thereof nearer to the doors of the people of this District. In order to enlist the sympathy of the mofussil members and make them take more interest in the welfare of the Association, it has been suggested that branch Associations may be started in the different Taluks and the mofussil members be addressed with a view to the formation of such branch Associations. It has also been resolved to approach the Collector with a view to the objects of the Association being brought to the notice of the Divisional Officers and Tahsildars and obtaining their co-operation.

As the subject of forming Taluk Sub-Committees has been placed as an item in the agenda, the members are earnestly requested to consider the same and arrive at a decision. In case they are to be formed, the Divisional Officers or the Tahsildars or the Taluk Board Presidents will have to be

requested to act as Presidents of the branch Associations in their respective Taluks.

Demonstation Agricultural and Cattle Farm.

The District is badly in need of a Demonstration Agricultural and Cattle Farm which subject you are kindly requested to consider. The suggestions made by some of the members are in the office, and open for perusal.

In conclusion, the executive Committee thank the auditors for auditing the accounts of the Association and the editors, of the Mangalore Mail, Navayuga and Konkani Dirven for supplying their papers free to the reading room. Our thanks are due to the Veterinary Doctors for rendering their services in connection with the stud bulls, and to the Collector of the District for acting as President of the Association and assisting the committee in various ways.

THE ANNUAL REPORT

OF THE

District Advancement Association,

SOUTH KANARA.

The Executive Committee have much pleasure to present their IV Annual Report on the working of the Association for the year ending 30th June 1924.

Membership.

At the beginning of the year under report there were 106 I Class and 27 II Class members on the rolls, of whom 4 first class and 1 second class, left the District, one first class and one second class have died and one first class was transferred to second class as requested by him. Fourteen first class and one second class were enrolled during the year. Thus at the close of the year there were 114 first class and 27 second class members.

The Association regrets to record the transfer of the President G. W. Wells, Esquire, Collector of the District who had taken lively interest in the affairs of the Association, especially Exhibition. It equally regrets to record the resignations of M. R. Ry. Dewan Bahadur M. M. Bangera, Avargal, and Mr. V. S. Albuquerque both of whom had rendered useful service during the time they were Vice President and Hon. Secretary respectively of the Association. The Association takes this opportunity of thanking the aforesaid office bearers for the useful service rendered by them.

Arrears of subscription.

The arrears at the end of the year under report were Rs. 418—12—0 of which Rs. 276—8—0 were due from the moffusil members and Rs. 142—4—0 from the town members. In spite of repeated demand of this amount, only Rs. 52 have since been collected.

It is needless to say that it is difficult to carry on the work of the Association, unless subscriptions are regularly paid by all the members. Reminders have again been sent to those who are in arrears. It is hoped that the arrears will be realized soon.

Meetings.

In all 8 meetings were held during the year; of which 7 were of the Executive Committee and one annual General meeting of the Association. The Honourable Revenue Member of the Madras Executive Council having visited the District in February last, the Executive Committee waited upon him and represented to him with facts and figures the necessity of granting remission of assessment to the wargadars, whose I and II crops suffered on account of floods, (during the first crop season and want of sufficient rainfall during the second crop season.)

Stud Bulls.

During the year under report the Association continued to maintain two bulls and one buffalo for breeding purposes and the total coverings were 220

Bull "Guindy Conqueror"	46
,, "Gopal"	93
Buffalo "Mahesha"	81
Total.	220

The cost of maintaining these animals amounted to Rs. 1091—10—10 during the year under report. The amount received from coverings is Rs. 320—8—0 and the amount of grant made by the Government towards the cost of maintaining the animals is Rs. 375—0—0 which includes an additional grant of 25 per cent. specially made for the official year ending 31st March 1924 on account of rise in the prices of food-stuffs. The Association takes this opportunity of placing on record its gratitude to Government and also to Mr. Littlewood, Deputy Director of Live stock, on whose recommendation the additional grant was made by Government. Even taking into account the 25% additional grant made by Government, the Association had to bear a loss of Rs. 396—2—10 in maintaining the animals. Steps will be taken to move Government to continue the additional grant for the current official year, as the prices of food-stuffs have not yet gone down.

Industrial Loan Scholarships.

With a view to help poor students desirous of learning the art of weaving, the Executive Committee have granted three scholarships during the year under report, at the rate of Rs. 5 per month, per student, tenable for 3 months These students were trained in the weaving factory of Messrs. P. Machado and sons as in the previous year and they are now employed by him. The Committee has also sanctioned, on condition of furnishing proper security for repayment after one year, in small instalments, a loan of Rupees one hundred, free of interest, to one Kumbli Mangesha Rao, who, tho' a boy, is very clever at cocoanut shell carving, button making &c., and who has won a silver medal for his articles at the last Agricultural and Industrial Exhibition held by the Association.

Finances.

It will be seen from the statement appendix A that the receipts during the year from all sources except Exhibition amounted to Rs. 1295—8—6 against Rs. 1449—4—3, of the previous year and the expenditure amounted to Rs. 1716—3—6, against Rs. 1785—12—11 excluding Rs. 96—2—10 spent during the previous year on account of printing prospectus &c. relating to the Exhibition held during the year, thus incurring a loss of Rs. 420—11—0 against Rs. 336—8—8 of the previous year. When compared with the previous year's figure the usual working of the Association has resulted in an increase in the annual loss by Rs. 84—2—4, which is due to the fact that most of the moffusil members did not pay their subscriptions, for the year 1922—23, even up to the close of the year under report.

Exhibition.

The proposal to hold the third Mangalore Agricultural and Industrial Exhibition having been finally settled at the annual meeting held in October last, the Committee very soon had the matter in hand and were able to hold the Exhibition at the end of December as already notified. The Exhibition was as usual held in the Government College Compound. It was opened by Mr. G. W. Wells at 8 A. M. on the 27th of December and remained open till 6 P. M. on the 29th idem. Various sorts of Indian made articles from several places in India were exhibited. There was also a demonstration of Sugarcane crushing and jaggery making in addition to the demonstration conducted by the textile branch of Government Industrial Department. The Government Departments of Agriculture, Forests, Fisheries, Entomology and Micology

also participated in the Exhibition by Exhibiting their various articles. A cattle and poultry show was also held and prizes were awarded. Various sorts of entertainments were provided to make the exhibition attractive. The receipts on account of Exhibition including the donation of 205—8—0 (Appendix D) received from the Local Boards and private persons amounted to Rs. 2577—7—2, Appendix B. as against Rs. 2389—15—6 earned at the Exhibition of 1920 and the expenditure amounted to Rs. 2014—12—0 as against Rs. 1767—1—9. Thus the net profit was Rs. 562—11—2, as against Rs. 622—13—9 earned during the previous Exhibition. Taking the Exhibition as a whole, it may be said that it was a distinct success, as the space covered by the exhibits was more than that of the Exhibition of 1920 and the sales at the gate and the actual attendance were much larger. When it is remembered that Rs. 500 were paid by the Collector from his discretionary grant and a sum of Rs. 363 were given as donation by private persons and local bodies towards the cost of the Exhibition of 1920 and in the present case the total donations came up to only Rs. 205—8—0 (Appendix D.) and the Collector was unable to pay anything from his discretionary grant, the budget allotment under the discretionary grant having already been spent otherwise, the Exhibition may be regarded as successful, even financially. Eighteen gold medals, 21 silver medals, six money prizes and 59 certificates of merit were awarded to the Exhibitors. The awards were presented to the winners by Mr. Souter, District Collector, and President of the Association, at a public meeting specially held on the 19th of July last, which was attended by a large number of members and outsiders.

Investments.

The cash balance at the close of the year was Rs. 6373—7—5 (appendix C). Out of this amount Rs. 4800—0—0 were kept in the Kanara Bank, Rs. 720 in the Puttur Central Bank as fixed deposits and Rs. 464—2—8 in the current Account of the Imperial Bank

Office Building.

The members are aware that the office of the association was located in a Government building close to the Hazur office. This building was secured for a nominal rental of Rs. 5 per month, thro' the exertions of the then President Mr. Ellis. As this building was required for the newly created Incometax Office, the Association had to vacate it in March last. Just at this time Mr. Bolar Shabu Sahib kindly allowed the Association to occupy free of rent one of his rented buildings. As Mr. Shabu Sahib made over the buildings on the 20th of October last to their owner, the association has vacated the building as desired by the owner and occupied temporarily the upper storey of Messrs. M. Pais and sons in front of the parade ground on a monthly rental of Rs. 12. As already decided at the general meeting of the association held on 19th July 1924 an application for a piece of Government land on the Light House Hill for constructing an office building for the association has already been submitted to the Collector. The Association will begin to construct the building, as soon as the land applied for is secured. The association avails itself of this opportunity of thanking Mr. Bolar Shabu

Sahib for having generously placed one of his rented buildings at the disposal of the association for about 7 months free of rent.

General.

The very constitution of the Association will convince anybody that the institution was founded by the then Collector Mr. L. Vibert, to form a semi-official body of gentlemen with the Collector of the District as President, to devise ways and means of improving the Agricultural and Industrial condition of the District and generally to help the people with their advice and also to obtain and furnish advice from Experts on any subject referred to it. If the members view this Association in this light and assist the Executive Committee by promptly paying their subscriptions, by inducing others to join it and also by sending in practical suggestions for expanding its usefulness and increasing its funds, the Association will be in a position in the near future to show more useful results and be of greater benefit to the public. In view to enlist the sympathy of generous persons in all the Taluk Head-Quarter stations in the district for the purpose of extending the activities of the Association to all these stations, it has been suggested to form a sub-committee at each Taluk Head-Quarters. The moffussal members are therefore earnestly requested to Co-operate with the Executive Committee in carrying out the suggestion.

The Executive Committee thank Mr. Souter, the Collector of the District for acting as President of the

Association and assisting the Committee in various ways and also the office bearers and Veterinary Doctors for the services rendered by them. The Committee are also thankful to the various well-wishers who helped the Association in carrying through the Exhibition and the work of the Association and also to the Editors of 'Kantirava', 'Navayuga', 'Konkani Dirve', and 'The Mangalore Magazine' for supplying the Association with a copy each of their papers, free of charge.

V. S. Albuquerque,
Hon. Secretary.

Kanara Printing Works, Mangalore.

Dept. Dept

South Kanara Dt. Advancement Association – Supply of Govt. Publications and – Departmental advice –

To Under Secy.

Please see the letter from the joint Secretaries of the S. Kanara Dt. Advancement Assocn and its enclosures in the C.f.

The requests contained in the letter are:–

(i) that this Dept may afford all possible help to the assocn by way of advice etc, and

(ii) that the assocn may be supplied with copies of all Govt. publications.

Before noting on the above, it is for orders whether the collector of S. Kanara or the D.A. may be requested to report on the status and working of the assocn and also to report whether the requests of the assocn may be complied with. ~~Draft Orders submitted for approval.~~

If it is considered unnecessary to make any reference, the letter of the Assn may be brought to the notice of the concerned Heads of Depts with a remark that the Govt would be glad if the Assn could be given all possible help and advice and supplied with all publications likely to be useful to it. It seems unnecessary to send it copies of admn Reports of all our Depts. (Agri, Vety, Coop; Dms; Forests)

For orders.

RS
22.1

12

The remarks of the Society are very moderate and it would appear that quite unobjectionable to comply with them.

Before however, we first issue any formal orders on the subject, it would perhaps be advisable to have the remarks of the Collector on the Society's letter & on the aims & objects of the Society generally.

Note that successive Collectors have been Presidents for several years. The letter might just go to the Collector for remarks.

DEPARTMENT OF DEVELOPMENT 23 MAR 6

No. 114 Dated 20-4-1926

From P. R. Ranganatha Punja B.A.B.L. To V. Pandranga Rao Esqre I.C.S.
Hony. Secretary
District Advancement Association,
S. Kanara, MANGALORE.

THE Secretary to Government
Ministry of Development
Madras

ENCLOSURES (W)

Reference:— Your office G. O. No. 532 dated 1-4-1926

Subject:— Books & Publications S. Kanara Dt: Advancement Association, free supply of Govt: Publications sanctioned.

Dear Sir,

(W)

The members of the Association are sincerely thankful to you for the said G.O. no. 532, of which a copy has been sent to us, and we hope that we shall be able to extend the sphere of activities and usefulness of the Association to the public at large of this District, now that greater opportunities seem to be afforded to us by the said G.O.

It is requested that all papers etc: sent from your department to our Association

may be addressed to the Secretaries, The District Advancement Association, Mangalore, S. Kanara, instead of merely "Joint-Secretary" as is done now, so that they may all be received in our office.

With many best regards,

I remain,

Yours Sincerely

M Ranganatha Pai

(Hony. Secretary)

This will be useful in future correspondence
